IT'S GOOD TO BE THE KING

TOYOTA HIGH-CAPACITY LARGE IC CUSHION FORKLIFT

Our impressive THD power is now indoors. Think automotive and forging. Huge paper rolls. Steel and raw materials. All demand the reliable power that Toyota provides. With a V8 engine and rugged design, this beast can handle anything you throw at it.

BUILT HEAVY DUTY

A rigid welded chassis with heavy steel cross supports. Impact resistant side thrusters. The power of a V8 engine. A Dana transmission with three forward and reverse speeds. And the engine diagnostics and support systems to back all that up. This indoor workhorse is built to last from the stable overhead guard all the way to the durable two-coat rust-inhibiting paint.

POWER AT YOUR FINGERTIPS

That strength comes with plenty of support. An engine management system protects your forklift and keeps delivering the same high-performance work you expect. The digital instrument display keeps you aware of operating status. Standard fingertip controls provide convenient, comfortable control of all functions for operators. And the high-visibility design can help keep operators aware of their surroundings.

ENGINEERED FOR OPERATORS

Advanced ergonomics keep operators comfortable while they work. Easily viewed gauges and auxiliary controls make monitoring performance intuitive and convenient. Add in a standard wide-view mast that ensures a wide field of operator vision, and you have a comfortably powerful machine.

KING-SIZED POWER

Prepare to have your expectations blown away. Power, durability, and all the high standards of the Toyota Heavy Duty line of forklifts. Add compact maneuverability for indoor operations, and this reliable machine will stand up to any challenges you throw at it. Strength you can depend on with Toyota.

AN INVESTMENT THAT PAYS YOU BACK

Toyota demands the best for its customers. The U.S.-built High Capacity Large IC Cushion is engineered from the ground up as a complete product. One with better components and well-thought-out integrated systems that work together to deliver intuitive, dependable performance day after day. Toyota forklifts don't require a lot of service. But when they do need service, it's fast and easy — by design. And legendary Toyota quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.

SAFETY COMES STANDARD

At Toyota we know people are your greatest asset. That's why the High-Capacity Large IC Cushion forklift includes all the necessary features to help keep your people safe. A wide-view mast. A high operator field of vision. An operator presence sensing system. All come together to give the safe operation you've come to expect from Toyota forklifts.
