

Working in the Pit?

JIT is here to help you build the future home of the Buffalo Bills!

With "The Pit" stadium project and other jobs picking up this spring, equipment will be in high demand. It's important to secure your rentals and purchases now, to ensure you have the machines you need this spring and summer. We carry a wide variety of new, used, and rental forklifts, scissor lifts, boom lifts, utility vehicles, and more - everything you need to complete the job.

Equipment for Purchase and Rent!

We Carry the Full Line of Scissor Lifts

Both electric and engine powered models

Easy to maneuver on both indoor and outdoor jobs, scissor lifts can carry personnel and their tools and equipment to heights of 13' to 53'. Handle rough, uneven terrain with their engine powered models, and complete indoor work using their electric models, which are quiet and produce zero direct emissions.

Help Your Crew Work in Difficult to Reach Areas

Using articulating and telescoping boom lifts

Precisely place your workers so they can be as productive and efficient as possible. Articulating boom lifts take you up and over objects to operate in hard to reach spaces, while telescoping models deliver excellent reach for working at heights up to 185'. Both types are needed on large construction projects!
