SOLUTIONS

ASSET MANAGEMENT - Know what equipment you have and where it is. Our service tracks your forklifts, material handling equipment, and more to ensure your assets are where they need to be.

CENTRALIZED BILLING - No more managing multiple invoices. Toyota Fleet gathers bills from different locations nationwide and provides one consolidated bill to your corporate location for ease and optimization.

WEB-BASED REPORTING - A user-friendly web-reporting system filled with robust data gives you oversight and analytics to make informed decisions about your fleet.

WORK ORDER MANAGEMENT/DISPATCHING - Unexpected maintenance can be a huge disruption to your daily operations. Toyota Fleet oversees work orders and dispatches the appropriate technical support, saving you time navigating phone lines.

PM MANAGEMENT - Planned maintenance is a great way to prevent damage and keep costs down. Our service provides tracking of your maintenance intervals and notifies when planned maintenance is due to make sure your equipment gets the attention it deserves.

FLEET OPTIMIZATION AND COST-SAVINGS MEASUREMENTS - Our metrics analysis of your material handling fleet allows us to optimize your number of forklifts in use to minimize costs and maximize profitability and productivity.

PERSONALIZED ACCOUNT MANAGEMENT - When it comes to business accounts, one size does not fit all. Your specific Fleet Account Manager will work with you to provide a personalized experience through analytics of cost per hour, annual cost savings, and other requested reports.

WHAT IS TOYOTA FLEET MANAGEMENT?

- Toyota Fleet Management solutions help material handling equipment customers who want to optimize their operations and increase productivity by reducing waste and increasing uptime.
- Comprised of three elements: asset management, spend management, and T-Matics.

WHAT DOES ASSET MANAGEMENT DO FOR YOU?

- Provides Visibility to Equipment Inventory
- Determines When a Forklift Needs to be Replaced, Retained or Relocated
- Maximizes Utilization and Uptime
- 24/7 Access to Online Reporting

WHAT DOES SPEND MANAGEMENT DO FOR YOU?

- Reduces Financial Risk and Set Strategic Operational Objectives Regarding Your Equipment
- Manages Your Total Cost of Operations:
 - MAINTENANCE • REPAIR • AVOIDABLE DAMAGE • RENTAL • EQUIPMENT FINANCING

WHAT DOES T-MATICS DO FOR YOU?

- Gives Insight and Visibility into Operations
- Optimize Your Fleet
- Lower Planned and Unplanned Maintenance Costs
- Reduces Damage and Place New Emphasis on Safety and Accountability
- Improve Operator Efficiency to Maximize Output
